

GUZTEC POLYMERS

Leaders in sustainable polymers.
Leaders in progress and innovation.

GUZTEC POLYMERS

GUZTEC
POLYMERS

At GUZTEC POLYMERS, we drive the transformation of the manufacturing industry through sustainable polymer solutions.

With over 60 years of experience, we help our customers improve their industrial processes by providing innovative, efficient and environmentally responsible materials.

As part of the **HROMATKA GROUP**, Europe's leading polymer distribution group, we combine international strength with local expertise to deliver tailored solutions to every market.

What sets us apart

Technical expertise

We do more than distribute materials. We understand applications, manufacturing processes and industrial challenges, enabling us to deliver solutions that perform in real production environments.

Customer proximity

Fast response, direct support and solutions tailored to each customer's needs.

Applied innovation

We work with advanced materials—including recycled, bio-based and engineering materials—to address new industrial challenges.

Commitment to sustainability

We support our customers in their transition towards more efficient and responsible business models, aligned with market requirements and regulations.
